

# Endpoint Security

Data Sheet

Simplifying Endpoint Protection Migration and Deployment

## Key Benefits

- Extensive endpoint discovery with Active Directory integration
- Predefined migration tasks including easy upgrades from third-party vendor
- One click tasks allow administrators or technicians to initiate virus scans
- Predefined agent health tasks keep systems running with optimal performance
- Customizable dashboard and reports provide summary details of agent rollouts and status

## Product Overview

Endpoint Protection integration component is designed to bring power and simplicity to the process of upgrading and deploying your endpoints to the Endpoint Protection 11.0 agent. The Integration Component provides easier migrations and installations for mid- to large-sized businesses with integrated operational reporting and management on the Management Platform. This free component can scale for both LAN connected and remote endpoints and facilitate migration from AntiVirus™ Corporate Edition, Client Security, Confidence Online™ for Corporate PCs, through robust delivery mechanisms that provide detailed reporting, broad dashboards, multicasting technology, and advanced client discovery.

## Specifications

### Notification Server

Processor	Pentium® 4
Memory	1 GB RAM
Hard Drive	5 GB of free disk space
Operating System	Windows Server® 2003
Database	Microsoft® SQL Server 2005 or Microsoft SQL Server 2005 Express

### System Requirements

- Common HTTP features: Default Document, Directory Browsing, HTTP Errors, Static Content
- Health and Diagnostics: HTTP Logging
- Performance: Static Content Compression
- Security: Request Filtering, Basic Authentication, Windows Authentication
- Application development: .Net Extensibility 4.5, ASP.Net 4.5, CGI, ISAPI Extensions, ISAPI Filters
- Management tools: IIS Management Console

## Features

- Centralized endpoint discovery and inventory
- Centralized rollout and migration assistance
- Client health and scanning tasks
- Integrated reporting
